

NBR

Textile Ply Food Hose

NTF

For food industries in accordance with the FDA 21 CFR 177 2600, USP 661, B.f.R, CE 1935/2004. Very robust hose, ideal for resisting ground abrasion. Suitable for main CIP cleaning, suitable for vacuum and pressure use. Recommended for all types of food products, mostly for oily and fat products.

SPECIFICATIONS

Inner Bore: White NBR

Reinforcement: Textile ply reinforced and galvanized wires

Outer surface: Light gray Chloroprene

Temperature range: from -30°C to + 90°C

Certification: 3-A (Gecitech's assembly)

Cleaning temperature: 30 mm, 120°C

Maximum length: 40 meters
